Modernity Plank 20	VE109	6" x 36"	2.5mm	20 mil	ArmourBead	Square	44.56	1,336.80	best

Features

Unlike anything done before! Here, at excellent price points, are designs and colors intentionally suited for urban spaces and multi-family housing—anywhere people enjoy forward-thinking decor. Modernity steps into new visuals that are not entirely wood designs. That's because there's a great need in many markets—especially urban—for products without busy graining or strong character. So this collection features clean, simple-grained woods like white oak and maple—alongside striations that are wood like but don't represent a species. Modernity's design intentionally avoids regional characteristics and works well for both west coast and east coast looks.
